

The **Clinic for Equine Internal Medicine** at the Equine Department of the Vetsuisse Faculty of the University of Zurich has a vacancy for a **Senior Clinician (60-80%) in Equine Internal Medicine** starting in June 2024 or by appointment.

**Requirement Profile:**

- Veterinarian with dissertation (DVM, Dr med vet, or equivalent)
- Completed residency program (Board eligible) or Board Certification in Large Animal Internal Medicine (ACVIM) and/or Equine Internal Medicine (ECEIM).
- The candidate should be a strong team player and have sufficient clinical experience in equine internal medicine. In addition, excellent communication skills and a high motivation for service, teaching and education of interns and residents are required.
- Knowledge of German (fluent written and spoken) and English is mandatory.

**Scope of work:**

- Clinical activity in the field of internal medicine (incl. neonatology, emergency, and intensive care medicine)
- Theoretical and practical training of students, residents, interns, residents (ACVIM / ECEIM) and graduate students as well as active participation in continuing education events for veterinarians.
- Emergency service at night and on weekends (on-call service, incl. on-call service during foaling season)
- Represent the Equine Department by interacting with clients, referring veterinarians, other faculty members, clinicians, colleagues in the preclinical and paraclinical institutes, students, outside research groups, visitors, and industry representatives
- Active participation in the future development of the Clinic for Equine Internal Medicine, committee work and assistance with necessary administrative tasks
- The scope of research activity depends on the level of employment

**Salary/employment:**

Employment is based on university rates for senior clinicians of the Vetsuisse Faculty of the University of Zurich, taking into account training and experience.

Clinic services must be completed on a weekly basis regardless of employment level.

**Application:**

The application documents (letter of application in German, curriculum vitae, copies of certificates and diplomas, at least 3 references) should be submitted in electronic form, summarized in a single PDF document, by e-mail to the Secretariat of the Clinic of Equine Internal Medicine: Ms. Ljubica Dimbrek, [pferdemedizin@vetclinics.uzh.ch](mailto:pferdemedizin@vetclinics.uzh.ch) by February 15, 2024 at the latest. Incoming applications are considered on an ongoing basis.

For further questions, applicants are invited to contact Ms. Ljubica Dimbrek or Prof. Colin Schwarzwald (+41 44 635 84 20; [pferdemedizin@vetclinics.uzh.ch](mailto:pferdemedizin@vetclinics.uzh.ch)).
