

Lecturer/Senior Lecturer/Associate Professor in Equine Health (Internal Medicine)

- **High Quality Veterinary Care**
- **Emergency and specialist centre**
- **Highly qualified dynamic support team**

The School of Animal and Veterinary Sciences provides world-class, outcome-based education and training of animal and veterinary scientists in a research environment. Based at the Roseworthy Campus, 50km north of the Adelaide CBD and minutes from Gawler, the school is situated on a 1600 ha property that includes a working farm, full service Veterinary Health Centre teaching clinics, and a range of general purpose and specialist teaching and research facilities. The School offers three academic programs: Animal Science, Veterinary Bioscience and Doctor of Veterinary Medicine (DVM).

The School has excellent facilities developed specifically for its veterinary program including an outstanding Equine Health and Performance Centre (EHPC), Companion Animal Health Centre, Production Animal Health Centre and a Veterinary Diagnostic Laboratory. We also have dedicated teaching and animal handling facilities and a herd of approximately 30 teaching horses. The veterinary program commenced school and we have graduated five cohorts of students. We are continuing to develop the clinical services, including plans for commencing residency programs in the near future and are developing our research capabilities. The equine team consists of three equine internal medicine specialists, three surgeons, two theriogenologists, an equine sports medicine specialist, two interns and an ambulatory team providing general practice services. We are also supported by a team of three specialist anaesthetists.

We are seeking an experienced, board certified internal medicine specialist (equine or large animal) to join our team. The successful candidate will contribute to clinical service provision (including after hours), teaching (clinical and didactic) and research. To be considered for this position you will be expected to have significant experience in the delivery of clinical services and tertiary teaching. You would also be expected to develop research within the field and have the ability to attract research funding in collaboration with other members of the team.

SELECTION CRITERIA

Use this form to define the selection criteria for an academic position at the University of Adelaide.
