

Specialist in Equine Internal Medicine

Equine Clinic Meslay du Maine, France

A sixteen-vet equine only clinic seeks ECEIM or ACVIM board-certified or board-eligible medicine clinician.

The clinic has an established and expanding referral caseload in both medicine and surgery. The medicine caseload is varied, including a significant neonatology component.

The role would require an enthusiasm for clinical work to support our veterinary team and to further develop the medicine caseload.

Equine Clinic Meslay du Maine is a specialist led private practice located in the west of France.

The main activity of the clinic is racehorses (TB and SB ; 70 %) and Sport horses (30%).

The team of 16 vets (including 4 interns) has an important and strongly increasing hospital activity with more than 1000 hospitalized horses per year and more than 500 surgeries per year.

Responsibilities to include:

- Working closely with the practice team, including 2 European Specialist in Equine Surgery, to deliver a comprehensive professional service to our clients and referring veterinary surgeons.
- 1 in 3 out of hours rota to manage emergency admissions to the clinic and ensure care of inpatients, with full support provided by the surgical team, nurses and interns.
- Management of the established internship programme, including training of the interns through clinical work, journal clubs and imaging rounds.
- Coordination of our laboratory and anaesthesia services.
- Promotion of the clinic and our services, and to our referring veterinary surgeons.
- There would be the opportunity for peripartetic medicine work to support our referring practices.

Knowledge of French is considered a plus.

We offer a competitive salary dependant on skills and experience.

Interested candidates should email their cv and letter of intent to tamara.debeauregard@gmail.com
