

Position Title: Senior Clinician in Equine Internal Medicine.

We are looking for an ECEIM/ACVIM Diplomat with 3+ years of post-residency experience to join our dynamic team of board-certified veterinarians in the Middle East. If you are looking to combine gold standard clinical work, with opportunities for cutting edge research, and an international adventure in a welcoming and luxurious city then look no further!

The Equine Veterinary Medical Center (EVMC) is a state-of-the-art equine referral center located within Al Shaqab, a magnificent horse complex situated in the heart of Education City, the educational hub of Qatar Foundation, in Doha, Qatar.

EVMC first opened its doors in 2018, has since grown to see over 3000 cases per year and become one of the most advanced equine medical centers in the Middle East. The center is open for all horses in the state of Qatar and the Gulf region. The hospital is equipped with a 3T MRI, CT-scan, nuclear scintigraphy, endoscopy and other modern imaging equipment including digital X-Ray and ultrasonography. The hospital has 3 operating theaters, an isolation unit, intensive care units for adult horses and foals, a well-equipped farrier shop, lameness examination areas on several surfaces and a well-equipped reproduction center. The medical services offered at EVMC include internal medicine/neonatal ICU, surgery, diagnostic imaging, sports medicine and rehabilitation, reproduction, anesthesiology/pain management, ambulatory medicine, dentistry and chiropractic. Our caseload includes a high volume of intensive emergency cases that provides fantastic clinical opportunities for our medicine team.

EVMC also hosts a state-of-the-art veterinary diagnostic laboratory, including necropsy services. In 2021, the laboratory obtained the ISO/IEC 17025:2017 accreditation and today offers a wide range of diagnostic testing and pathogen identification.

The hospital is staffed with an excellent multicultural and dynamic support team of veterinary residents and interns, qualified nurses, veterinary assistants, and grooms. This allows senior clinicians to practice the highest standard of veterinary medicine, pursue research interests and also enjoy a great work-life balance, including all the luxuries that Qatar has to offer.

EVMC also offers excellent research opportunities, and we expect clinicians to establish independent and collaborative research projects, both national and international. A designated research laboratory space is available to assist, support and coordinate clinicians' research activities. The research laboratories are equipped for cell culture, molecular biology, chemistry and endocrinology supervised by a full-time laboratory researcher.

Qatar Foundation (QF) is a non-profit organization that supports Qatar on its journey to becoming a diversified and sustainable economy. By offering lifelong learning opportunities, fostering a culture of innovation, and empowering the local community, we are investing in Qatar's future and contributing to a better world

The Equine Veterinary Medical Center is seeking applicants for a full-time position as **Senior Clinician in Equine Internal Medicine.**

Responsibilities:

The successful candidate will be expected to:

- Provide excellent Equine Internal Medicine clinical services to EVMC clients, mainly in-house, including emergency and critical care, gastroenterology, neonatology, pneumology, neurology, ophthalmology, dermatology, and cardiology among others.
- Support the anesthesia/pain management service by supervising interns or residents conducting general anesthesia and neuroleptanalgesia for recumbent or standing surgical procedures respectively.
- Communicate efficiently and regularly with EVMC clients and referring veterinarians on the horses' medical conditions and updated invoices.
- Contribute to the clinical training/teaching of residents, interns, externs as well as EVMC referring veterinarian community in the format of continuing educational opportunities.
- Perform emergency work after hours, during weekends and public holidays; to be shared evenly with other internal medicine team members.
- Provide administrative and strategic committee support occasionally.
- Contribute to the advancement of knowledge in equine veterinary medicine in your area of interest through retrospective and prospective research projects.
- Further the national, regional and international reputation of EVMC.

Qualifications and experience:

- DVM or equivalent.
- A completed residency in in Equine/Large Animal Internal Medicine and ACVIM or ECEIM Board certification.
- A research degree (MSc or Ph.D.) desirable.
- A minimum of 3 years of experience in Equine Internal Medicine, acquired at referral private hospitals, or at university veterinary teaching hospitals.
- Evidence of a publication record in veterinary medicine.

Compensation: Qatar Foundation offers an attractive compensation package that includes a tax-free salary and additional benefits such as housing and transportation allowance, annual paid leave, annual airfare allowance, life and medical insurances among other benefits.

Application: Applicants should submit a letter of intent, Curriculum Vitae, and the names and contact details of three references to talentacquisition@qf.org.qa. Applications will be accepted until the position is filled.

For more information please contact Dr. Matthew Robin, Head of Internal Medicine, at mrobin@qf.org.qa or Dr. Florent David, Head of Surgery at EVMC, at fdavid@qf.org.qa, or visit www.qf.org.qa and www.evmc.qa for more information.
