

## **Permanent position for Senior Clinician in Equine Internal Medicine (m/f/d)**

Pferdeklinik Sottrum West GmbH is an independent, owner-managed equine clinic with a broad spectrum and varied caseload, including sport-, pleasure- and breeding-horses. The clinic offers services in internal medicine, surgery, orthopedics, sport medicine and emergency/critical care including colic surgery. In December 2017 we opened our new purpose-built hospital, giving us even more capacity and ability to serve our customers on a high standard ([www.klinik-fuer-pferde.net](http://www.klinik-fuer-pferde.net)).

Sottrum is conveniently located in Northern Germany at the A 1 between Hamburg and Bremen in a rural setting and has a high residential value due to its above-average infrastructure (including a crèche, pre-school, schools and various clubs).

In addition to the care of in-patients, the clinic maintains an intensive in-house consultation service of out-patient for both first opinion and referral equine cases. The modern clinic complex is equipped to provide a full diagnostic service, including:

- electrocardiography including tele-ecg
- ultrasonography with echocardiography capabilities
- endoscopy (stationary and overground) and gastroscopy
- oral/dental endoscopy
- digital radiography (roof mounted and mobile system)
- in-house laboratory including cytospin, blood gas analysis, TBS/BAL, Lamp-Test
- roofed round pen for exercise test
- isolation unit

Our surgical theatres are fully equipped for arthroscopy, laparoscopy (recumbent and standing), basic fracture repair and soft tissue surgery including laser surgery.

To strengthen our team, we are looking for a specialist in internal medicine.

### **Responsibilities:**

The successful candidate will be expected to provide clinical services, including:

- gastroenterology
- respiratory diseases
- cardiology
- poor performance
- neurology
- ophthalmology
- neonatal diseases
- dermatology
- metabolic diseases

- emergency and critical care
- participating in an out of hours rota (mainly as background service)
- contributing to clinical training/teaching of junior colleagues and consultation of referral colleagues
- optimizing in-house procedures in documentation, referrals and communication with owners and referring colleagues
- interest in clinical pathology/cytology is an advantage
- Performing a spectrum of surgeries is facultative, training will be offered

#### **Qualifications and experience:**

- the applicant should hold a certificate in Equine Internal Medicine (Fachtierarzt für Pferde, Fachtierarzt für Innere Medizin der Pferde, Dipl. ECEIM/ACVIM or board eligible) or having similar experience
- applicants must be fluent in German and be able to get the German “Approbation”
- the successful applicant should have good communication skills and be an excellent team-worker.

#### **What we can offer:**

- a complex and varied caseload
- full- or part-time position
- competitive salary – experience related
- excellent opportunities for personal and professional development
- organized out of hours-rota with compensatory time off
- time for internal development and your own professional training
- option to join the management or partnership

We look forward to receiving your application. Your application will of course be handled discreetly. Please send us your informative, digital application documents to the attention of M. Paar to: [michael.paar@ewetel.net](mailto:michael.paar@ewetel.net)
