

Welcome to the Team

The department of equine internal medicine, Pferdeklinik Leichlingen GmbH, in Nordrhein-Westfalen, Germany, invites applicants for a clinical position in equine internal medicine. The Pferdeklinik Leichlingen GmbH was founded in 2011 and is now one of the biggest equine clinics in Germany. The clinic employs over 100 people, amongst them 27 veterinarians and 55 technicians in the services orthopedics, surgery, radiology, and internal medicine and provides their customers with an overall service in equine medicine. The barn contains 16 stalls in the intensive care unit, 6 stalls in isolation, and 73 stalls for orthopedic and medicine patients.

Apply with us now in full-time or part-time as a

Clinician in Equine Internal Medicine (Dipl. ECEIM/ACVIM)

Applicants must hold a DVM or equivalent degree and a Diplomate in the European College of Equine Internal Medicine, or a Diplomate in the American College of Veterinary Internal Medicine (Large Animal).

The successful candidate will work close together with the other members of the medicine team, supervise and mentor a resident and will be expected to contribute maintaining a high-quality equine clinical service and building case load. The applicant has to be fluent in English and comes with good command of German as well.

Salary will be commensurate with the applicant's experience and qualifications. The start date is negotiable. Screening of applicants begins immediately and continues until a suitable applicant is identified.

For more information or to submit an application please contact Dr. Matthias Krebs at m.krebs@pferdeklinik-leichlingen.de or under +49 2175 88 455-0.
